

Q8 Milking Machine Oil

Product Description

Q8 Milking Machine Oil is a high quality, ISO 68 lubricant formulated from solvent-refined base oils and an extensive additive package. It is particularly suitable for cold winter mornings as it enjoys a low pour point and is also inhibited against corrosion and foaming.

Applications

Q8 Milking Machine Oil is eminently suitable for the lubrication of milking machine vacuum pumps where it provides excellent protection to all working parts. It may also be used in other agricultural machinery where an hydraulic ISO 68 oil is required.

Main Features and Benefits

- Excellent protection against rust and corrosion.
- Outstanding lubrication characteristics ensure long and trouble free machinery operation and life.
- Low pour point allows effective operation even on the coldest of winter mornings.

Typical Inspection Data

<u>Property</u>	<u>Method</u>	<u>Unit</u>	<u>Inspection Data</u>
Absolute Density, 15 °C	D 4052	kg/m ³	881
Kinematic Viscosity, 100 °C	D 445	mm ² /s	8.66
Kinematic Viscosity, 40 °C	D 445	mm ² /s	68
Viscosity Index	D 2270		98
Pour point	D 97	°C	-18
Flash point	D 93	°C	246

Health and Safety

Reference should be made to the relevant Q8 Material Safety Data Sheet before use.
